

Use the *Draw a Picture* problem solving strategy:

Alexander went for a walk by a pond. At the pond, he saw 2 lily pads. On each lily pad were 3 frogs. How many frogs did he see all together?

Alessandra made 4 books during tinkertime. She put 2 stickers on the cover of each book. How many stickers were there in total?

Camden made 2 play dough pizzas. On each pizza were 5 pieces of pepperoni. How many total pieces of pepperoni did he have?

Cami drew some nature pictures. She drew 3 flowers. Each flower had 2 leaves. On each leaf were 2 ladybugs. How many ladybugs were in her picture?

Evan and his family were eating breakfast. There were 5 plates on the table. On each plate were 2 pancakes. On each pancake were 3 banana slices. How many banana slices were there all together?
